RIP 4000 ROTATING HEAD

LOWER COST, DUSTLESS, HIGH PRODUCTION ABRASIVE INJECTED WATER BLASTING THAT EXCEEDS DRY BLASTING PERFORMANCE.

Only The RIP 4000 Offers:

- **No Tarping ***
- **Steel Profiling ***
- **White Metal Finish ***
- **Reduced Media Consumption ***

The RIP 4000 offers production speeds 4 – 5 times faster than conventional water blasting and can be used with any pump, rotating gyro gun or robotic system.

This amazing new **R**otary **I**njection **P**rofiler offers an unbeatable combination of features:

- **Full 360° rotation for broader coverage and faster cleaning times**
- **Unique cutting action cleans and profiles surface**
- **Aluminum housing for light weight and easy handling**
- **Tungsten insert for longer life**
- **Can be used with 0-40,000 psi hydro-blast systems**
- **Uses 1/4 the amount of abrasive than the standard head**
- **Meets or exceeds performance of dry blast nozzles**
- **Less cleanup since the amount of abrasive consumed is minimized (150-180 lbs per hour)**

For additional information or to place an order, please call Harry Richmond at 800-528-7086 or 713-797-1014.
