

Pool Tile Cleaning

MaxxClean Pool Cleaning System Safely Removes Calcium, Mold, Mildew and Hard Water Deposits

The MaxxClean System utilizes a standard 3500 psi pressure washer with an environmentally-friendly soft abrasive mineral media MaxxStrip Pool Formula (PF-2) which is specially formulated for cleaning swimming pool tiles to safely clean dirty grout and remove calcium, oily residue, mold or algae. Also available is MaxxStrip PT-2, a more aggressive formulation designed for Pebble Tec and stone pool waterlines.

Benefits of MaxxStrip

- environmentally-friendly to wash into soil
- water soluble, silica-free & pH neutral abrasive
 - cleans calcium/mold deposits
- does not scratch or pit tile like glass beads
 - safe on tile & grout
- cleans multiple surfaces
