## **BENEFITS OF USING SHARPJET GARNET ABRASIVES**

- Mohs hardness of 7.5
- Environmentally and health-safe (contains no heavy metals)
- Virtually silica free (less than <0.5%)
- White metal finish without embedment
- Reduce air emissions greatly with garnet abrasive
- Low Chlorides
- Mil Spec and CARB Approved
- Meets AB1
- With proper metering, 70% less abrasive is used than slag & cuts 30-40% faster than slag
- Unique grain-hardness/toughness reduces particle breakdown
- Bulk density of 150 lbs/ft<sup>3</sup> vs. 110 lbs. for sand & slag abrasives
- Specific Gravity of 4.0
- Recycles 2-3 times
- Lower abrasive disposal cost/lower containment cost
- Supplied by Universal Minerals under Stringent QC Program
- Reliable stocking levels
- Available in 55 lbs. bags, super sacks and pneumatic trailers
